

COFRALITH MULTI EP 2

Multipurpose grease for usual lubrication of automotive and industrial equipment.

APPLICATIONS

COFRALITH MULTI EP 2 is a multi purpose EP grease based on lithium soap with good anti-ageing and corrosion protection properties

COFRALITH MULTI EP 2 is suitable for lubrication of all kinds of plain and rollers bearings, as well as for wheel bearings.

- Lubrication of automotive bearings
- Lubrication of industrial bearings and joints, or mechanical organs working under light or medium load.

MAIN PROPERTIES

- Stability to temperature
 - Good Water resistante
 - Good adhesiveness
 - Good anti wear properties
 - Good ageing resistance
 - Good EP properties
 - Anti-corrosion and anti-oxidation properties
- Temperature range : - 20°C to 120°C.

TECHNICAL CHARACTERISTICS

AVERAGE CHARACTERISTICS	UNIT	AVERAGE VALUES	METHODS
Product Classification		KP 2 K-20 ISO-L-XBCEB 2	DIN 51825 ISO 12924
NLGI Grade		2	
Colour		Brown	
Thickening Agent		Lithium	
Texture		Smooth	
Dropping Point	°C	>170	ASTM D566
Unworked penetration	mm/10	265/295	ASTM D217
