
DEGRIPPANT

PENETRATING OIL

Anti seize, anti corrosion and lubricating product.

MAIN PROPERTIES

- Unseizes bolts, screws or nuts blocked by rust, locks, hinges... by penetrating very quickly between the blocked parts.
- Lubricates all joints, door locks, spring axles.
- Protects against corrosion, remove moisture and prevents condensation.
- Effective for electrical circuits, chrome, plastics, etc.

INSTRUCTIONS FOR USE

Shake before use.

Spray on the parts, wait few minutes, do it again if parts are very corroded.

F+ : EXTREMELY FLAMMABLE PRODUCT

- **Use and store far from all flame, heat source, spark or working electric machine. Do not inhale. Operate by short pressures without long spraying. Ventilate after use.**
- **High-pressure spray. Protect from the sun. Do not expose to temperature over 50°C. Do not spray towards a flame or incandescent bodies.**
