MAINT PROPERTIES

Owing to its detergent properties, **PLURA 20W50** ensures an effective dispersion of combustion residues and accumulated deposits, thus maintaining engines high operating performance.

PLURA 20W-50 is extremely sheared resistant, ensuring a constant lubrication of operating parts and optimizing the properties of anti-wear additives.

APPLICATIONS

PLURA 20W-50 is the ideal lubricant for fleets of vehicles where simplification is required.

When you need a lubricant, which can be used for diesel engines as well as for petrol engines, PLURA 20W-50 meets the requirements for performance and engine efficiency for both types.

With PLURA 20W-50, COFRAN can offer you a predictive engine monitoring service by regular analyses of the lubricant in use. Your sales agent will help you to get the monitory logistics ready.
