

PLURAFLUID HV 15-32-46-68

Lubricants for hydraulic systems working under severe conditions

SPECIFICATIONS

- AFNOR NFE 48603 HV
- DIN 51524 Part 3 HVLP

DESCRIPTION

High quality, antiwear hydraulic oils designed for service in mobile and stationary high pressure system subjected to wide variations in ambient and operating temperatures.

The outstanding antiwear and oxidation stability properties provide long service life.

PLURAFLUID HV are available in shear-stable multi-viscosity grades.

APPLICATIONS

PLURAFLUID HV are recommended for high pressure hydraulic systems (industrial, civil works and agriculture) working under severe load and subjected to wide variations in operating temperature. Suitable also for air-compressors where hydraulic oils are recommended.

PLURAFLUID HV are not suitable for use in machine-tools and in industrial pumps
