

SINTOLUX POWER 10W-30

Synthetic Gasoline Engine Oil for passenger cars

SPECIFICATIONS

Specifications **API SN**
ILSAC GF-5

PROPERTIES

- Manufactured with high-viscosity index, premium-quality, synthetic/hydroprocessed base oils and specially designed performance additives
- Helps minimize engine deposits and wear
- Protects against high-temperature, oxidation, low-temperature gelling, rust, corrosion and foaming
- Fuel savings thanks to its low viscosity
- Optimum cold starting performance, lower oil consumption and minimized exhaust emissions.

APPLICATIONS

SINTOLUX POWER 10W-30 is recommended for use in all vehicles with normally aspirated, turbocharged and supercharged gasoline engines

TECHNICAL CHARACTERISTICS

Average Characteristics	Unit	Average Value
SAE Grade		10W-30
Density at 20°C	kg/m ³	866
Viscosity at 100°C	mm ² /s	10.9
Viscosity at 40°C	mm ² /s	69.8
Viscosity index		146
Flash Point	°C	238
